INTRODUCTION

1. This volume of the statistical Abstract of Orissa presents statistical information in abstract form relating to different places of the Socio-Economic life of Orissa for a period of ten years, the latest year in most of the tables being the year 1958-59 in case of financial year and 1959 in case of calendar year. Districtwise information wherever available, have been presented only for the latest year. The scope and contents of this Volume have been revised in order to make it more useful to General Public and to Government Departments.

2. Like its previous issue technical notes indicating the concept and definitions used in each of the Statistical tables have been given in this Volume at the beginning of the each section of this publication and statistical data relating to weights and measures in existing units and in metric units have been given side by side. The figures in metric units have been printed in *italics* to distinguish them from those in existing units.

3. The Bureau acknowledges with gratitude, the Co-operation of all Government Departments and organisations who have made available most of the statistical data presented here.

4. Departments of Governments and the interested public are requested to make their needs known to Bureau and forward comments and suggestions for improvement of this publication. Such suggestions are always welcome and will be carefully considered in planning future Volumes. Although it is a Government Publication, the State Government are in no way responsible for or committed to the views expressed in it.

5. The following abbreviations and symbols have been used in most of the tables.

"C.M." for Centimetres

"Sq." for Square

"Mds." for Maunds

"Srs." for seers

"Ch." for Chataks

"Rs." for Rupees

"Kg." for Kilograms

"T." for Metric tonnes

"Km." for Kilometre

"K.W.H." for Kilo Watt-hours

"(—)" for Not available or Not reported

"(.)" for Nil

CONTENTS

TABLE NO.	SUBJECT	PAGE NO.
I. Climate		
1·1	Normal and actual rainfall	1
1·2	Temperature and Humidity	2
II. Area and population		
2·1	Area and population in different Administrative Zones of Indian Union ..	4
2·2	Area, houses and population in different Subdivisions of the State of Orissa ..	5
2·3	1961 provisional population and percentage of literacy in different districts of Orissa ..	17
2·4	1961 provisional population with number of literates, percentage of literacy and density per square mile in different States and Territories of Indian Union ..	18
III. Vital Statistics		
3·1	Number of births and deaths, birth rates, death rates and infant mortality in in the State of Orissa ..	21
3·2	Deaths from chief diseases in the State of Orissa ..	26
3·3	Occurrence of deaths and ratio of mortality due to various diseases in the State of Orissa ..	29
3·4	Deaths by age-groups in the State of Orissa ..	34
3·5	Deaths due to Snake-bite and attack of wild animals ..	37
IV. Medical and Public Health		
4·1	Number of Hospitals, Dispensaries, Beds available, patients treated and daily average attendance of patients in the State of Orissa ..	39
4·2	Patients treated in various Hospitals and Dispensaries by diseases in the State of Orissa ..	42

TABLE NO.	SUBJECT	PAGE No.
4.3	Income and Expenditure in Government and Public aided Hospitals and Dispensaries in the State of Orissa ..	49
4.4	Number of personnel in Medical and Public Health services in the State of Orissa ..	51
4.5	Number of Primary Health Centres, Maternity and Child Welfare Centres and Maternity Centres functioning in the State of Orissa ..	52
4.6	Sickness of prisoners in District Jails in the State of Orissa ..	53
V. Education		
5.01	Number of Educational Institutions in the State of Orissa ..	57
5.02	Classification of the Educational Institutions in the State of Orissa ..	59
5.03	Number of Scholars attending Educational Institutions in the State of Orissa ..	60
5.04	Number of teachers working in the Educational Institutions in the State of Orissa ..	63
5.05	Number of Colleges with strength of teachers and students in them and expenditure incurred for University Education in the State of Orissa during the year 1958-59 ..	66
5.06	Number of Schools in the State of Orissa during the year 1958-59 ..	70
5.07	Number of Schools in different districts of Orissa during the year 1958-59 ..	71
5.08	Number of Sholars on roll of Schools in the State of Orissa during the year 1958-59 ..	84
5.09	Number of scholars on roll of Schools in different districts of Orissa during the year 1958-59 ..	85
5.10	Number of teachers working in Schools in the State of Orissa during the year 1958-59 ..	98
5.11	Number of teachers working in Schools in different districts of Orissa during the year 1958-59 ..	99
5.12	Expenditure (source-wise) incurred in Schools in the State of Orissa during the year 1958-59 ..	112
5.13	Expenditure (source-wise) incurred in Schools in different districts of Orissa during the year 1958-59 ..	113

TABLE NO.	SUBJECT	PAGE No
5-14	Number of Literates and the percentage of Literacy by livelihood classes in the State of Orissa ..	126
5-15	Results of different Examinations in the State of Orissa ..	127
5-16	Number of Ashram Schools and Sevashrams with strength of students and teachers in them in the State of Orissa ..	130
5-17	Distribution of stipend and Lump grant and grant-in-aid in shape of reading and writing materials to Scheduled Caste and Scheduled Tribes students ..	132
VI. Judicial and Administrative		
6-01	Number of Judicial Divisions, Judicial Districts and number of Officers exercising Appellate or Original Jurisdiction in the State of Orissa. ..	134
6-02	Number of cases decided in the Courts of Orissa ..	136
6-03	Number and description of Civil Suits instituted in the State of Orissa. ..	138
6-04	Number and value of Civil Suits instituted in the State of Orissa ..	140
6-05	General results of trial of Civil and Revenue cases in courts of Original Jurisdiction in the State of Orissa (Civil suits) ..	142
6-06	General results of trial of Civil and Revenue cases in the courts of Original Jurisdiction in the State of Orissa (Miscellaneous cases) ..	144
6-07	Civil Appellate Courts—Appeals from decrees in the State of Orissa ..	146
6-08	Civil Appellate Courts—Miscellaneous appeals in the State of Orissa ..	148
6-09	General results of trials of Criminal cases in the State of Orissa ..	150
6-10	General results of Appeals and Revisions in the State of Orissa ..	151
6-11	Nature of Offences reported and number of persons tried, convicted and acquitted in the State of Orissa ..	153
6-12	Punishment inflicted in Criminal cases in Orissa ..	188
3	Number and description of Registered documents and value of property transferred in the State of Orissa ..	190

TABLE NO.	SUBJECT	PAGE NO.
6-14	Strength and cost of Village watch in the State of Orissa ..	192
6-15	The Strength and cost of Police Force in the State of Orissa ..	194
6-16	Area and population served by police-stations ..	196
6-17	Crimes and Conviction in the State of Orissa ..	197
6-18	Cognizable Crime—Classes I to V including Abetment and Criminal conspiracy—Number of cases and persons concerned in the State of Orissa ..	199
6-19	Cognizable Crime—Class VI (other offences) including offences under Special and Local Laws and Criminal Tribes Act—Number of cases and persons concerned in the State of Orissa ..	204
6-20	Non-cognizable Crime—Classes I to V including abetment and criminal conspiracy—Number of cases and persons concerned in the State of Orissa ..	208
6-21	Non-cognizable Crime—Class VI (other offences) including offences under Special and Local Laws—Number of cases and person concerned in the State of Orissa ..	212
6-22	Property stolen and recovered in the State of Orissa ..	216
6-23	Equipment, Discipline and Internal management of Police Force ..	217
6-24	Principal Police offences—Number of cases in the State of Orissa ..	223
6-25	Number and Distribution of Prisoners in the State of Orissa ..	225
6-26	Number of Convicts admitted into Jails and Subsidiary Jails by age and State of education in the State of Orissa ..	229
6-27	Number and disposal of convicts in the jails and Subsidiary Jails in the State of Orissa ..	231
6-28	Nature and length of sentences of convicts admitted into the Jail and Subsidiary Jails in the State of Orissa ..	237
6-29	Offences committed by convicts and the punishments inflicted in the Jails and Subsidiary Jails in the State of Orissa ..	241

TABLE No.	SUBJECT	PAGE No.
6-30	Sickness and mortality among prisoners of the Jails and Subsidiary Jails in the State of Orissa ..	244
6-31	Number of Convicts admitted, who had been previously convicted into the Jails and Subsidiary Jails in the State of Orissa ..	248
6-32	Expenditure incurred in guarding and maintaining Prisoners of the Jails and Subsidiary Jails exclusive of cost of building, repair, etc., in the State of Orissa ..	251
6-33	Conditions of Prisoners released from the Jails and Subsidiary Jails in the State of Orissa ..	253
6-34	Working of the mark system in the Jails and Subsidiary Jails in the State of Orissa ..	255

VII. State Finance

7-1	Net Revenue and expenditure charged against Revenue, Annual Surplus or deficit and cash balances ..	258
7-2	Distiribution of the Expenditure on Famine Relief. .	258
7-3	General Abstract of Revenue and Receipt (Revenue Account) ..	259
7-4	Interest Receipt ..	261
7-5	General Abstract of Expenditure (Revenue Account) ..	262
7-6	Consumption of Country Spirit and Outstill Liquor, Ganja, Opium, Bhang and total Revenue derived from them. ..	264
7-7	Sales of and Revenue derived from Motor Spirit in the State of Orissa. ..	268
7-8	Sales Tax and Agricultural Income-tax collected in the State of Orissa ..	271
7-9	Revenue realised from the sale of forest produce in the State of Orissa ..	272

VIII. Income-Tax

8-1	Classification of the tax payable according to the grade of total income and class of assessees ..	274
8-2	Classification of assessees according to the grade of net income ..	290
8-3	Group of trade classification of business and professional incomes assessed to Income-tax and Super tax ..	293

TABLE No.	SUBJECT	PAGE No.
IX. Local Bodies		
9·1	Gram Panchayat Statistics ..	295
X. Currency and Coinage		
10·1	Currency in circulation in India ..	297
10·2	Spot prices of Bullion in Orissa ..	297
XI. Wages and Prices		
11·01	Index No. of retail prices (unweighted) in the State of Orissa ..	299
11·02	Index number of wholesale prices (unweighted) in the State of Orissa ..	300
11·03	Prosperity Index of the farmers in the State of Orissa ..	301
11·04	Working class consumer price index numbers for Cuttack. ..	302
11·05	Working class consumers price index numbers for Berhampur ..	302
11·06	Comparative Statement of working class consumer price index numbers for various centres in India ..	303
11·07	The average retail price of common rice in the State of Orissa ..	304
11·08	Cost of selected items of farm cultivation in the State of Orissa ..	305
11·09	Rural wages of different classes of labour in the State of Orissa ..	307
11·10	Harvest prices of different commodities ..	309
11·11	Retail prices of some important commodities ..	312
11·12	Wholesale prices of certain important commodities..	313
XII. Bank		
12·1	Scheduled Banks operating in Orissa ..	316
12·2	Amount of loans advanced by different branches and sub-branches of the State Bank of India to individuals pledging to business concerns in the State of Orissa. ..	317

TABLE No.	SUBJECT	PAGE No.
XIII. Joint-Stock Company		
13.1	Position of Joint-Stock Companies in the State of Orissa ..	319
XIV. Co-operation		
14.1	Number, Membership and Financial position of Co-operative Societies ..	321
14.2	Number, Membership and Financial position of Provincial Co-operative Institutions ..	325
14.3	Number, Membership and Financial position of Individual Society in the State of Orissa during the year 1958-59 ..	329
XV. Agriculture		
15.1	Classification of Area in the State of Orissa ..	333
15.2	Area under different Crops ..	340
15.3	Yield of different crops ..	354
15.4	Average yield of different crops per acre ..	366
15.5	Area under cultivation and yield of coconuts in the State of Orissa ..	376
15.6	Area irrigated ..	377
XVI. Forest		
16.1	Area of lands ..	380
16.2	Outturn of forest produce ..	380
16.3	Protection of Forests — Results of protection from fire and cattle ..	381
XVII. Live-Stock		
17.1	Number of Agricultural Implements in the State of Orissa ..	383
17.2	Number of Live-stock in the State of Orissa ..	385
17.3	Seizures and Deaths of cattle from various contagious diseases in the State of Orissa ..	391
17.4	Number of animals treated and castrated at the Veterinary Institutions ..	392

TABLE No.	SUBJECT	PAGE No.
XVIII. Industry and Mining		
18-1	Salt production in the State of Orissa ..	394
18-2	Summary statistics of Manufacturing Industries in the State of Orissa ..	396
18-3	Number of Factories (Industry wise) in the State of Orissa ..	399
18-4	Manufacturing statistics of selected Industries in the State of Orissa ..	403
18-5	Output and value of Minerals ..	409
XIX. Labour and Employment		
19-01	Distribution of workers and factories according to the number of working days in the State of Orissa ..	415
19-02	Number of working factories, workers employed and licence fee realised in the State of Orissa ..	416
19-03	Number of accidents in factories in the State of Orissa ..	416
19-04	Accident in factories by selected Industries in the State of Orissa ..	417
19-05	Industrial absenteeism in the State of Orissa ..	418
19-06	Proceedings under Workmen's Compensation Act, 1923 before the Commissioners for Workmen's Compensation in the State of Orissa ..	419
19-07	Proceedings under Workmen's Compensation Act, 1923 before the Commissioners in different districts of Orissa ..	421
19-08	Cases of accidents in respect of which final compensation has been paid under Workmen's Compensation Act 1923 in different Industries in the State of Orissa ..	422
19-09	Accident in factories and Mines in different districts of Orissa and amount of compensation paid under Workmen's Compensation Act, 1923 ..	423
19-10	Working of the Payment of Wages Act, 1936 in the State of Orissa ..	424
19-11	Deduction from Wages ..	424
19-12	Average annual earnings per worker by Industry in the State of Orissa ..	426

TABLE No.	SUBJECT	PAGE No.
19·13	Number of Industrial Disputes in the State of Orissa ..	428
19·14	Working of Employment Exchanges in the State of Orissa ..	429
XX. Fuel and Power		
20·1	Production and Distribution of coal and its despatches by rail by class of consumers in the State of Orissa ..	431
20·2	Generation and Consumption of Electricity in the State of Orissa 1959 ..	433
XXI. Transport and Communication		
21·01	Traffic Census of State Transport Services, Orissa ..	437
21·02	Traffic Census of Orissa Road Transport Company Limited, ..	437
21·03	Routes operated by the State Transport Services, Orissa during the year 1958-59 ..	438
21·04	Routes operated by the Orissa Road Transport Company Limited during the year 1958-59 ..	438
21·05	Financial position of the State Transport Services and Orissa Road Transport Co. Ltd. ..	439
21·06	Number of vehicles plying in different districts in the State of Orissa during the year 1957-58 ..	441
21·07	Number of vehicles plying in different districts in the State of Orissa during the year 1958-59 ..	443
21·08	Number of Motor Vehicles Driving Licences issued in the State of Orissa ..	445
21·09	Number of motor vehicles taxed in Orissa ..	445
21·10	Number of motor vehicles tax receipts and fees collected therefrom ..	446
21·11	Number of accidents due to conveyances ..	447
XXII. Posts and Telegraphs		
22·1	Small Savings in the State of Orissa ..	449
22·2	Number of Post and Telegraph Offices working in the State of Orissa ..	449
22·3	Postal Traffic in Orissa ..	450
22·4	Postal Revenue in Orissa ..	451

TABLE No.	SUBJECT	PAGE No.
XXIII. Amusement		
23-1	Number of cinema-going population and total sale proceeds realised from them in different districts of Orissa ..	453
23-2	Entertainment Taxes collected in different districts of Orissa ..	454
23-3	Sitting capacity in different Cinema Houses with the value of the tickets and the amount of entertainment tax charged as on the 31st December 1959 ..	455
XXIV. Export and Import		
24-1	Quantity, value and tollage of different Cargoes carried by inland water transport in Orissa ..	464
24-2	Articles exported from and imported to Orissa by rail ..	466
XXV. Community Development		
25-1	Provision and Expenditure of Second Five-Year Plan in the State of Orissa ..	488
25-2	Progress of physical achievements in Community Development and National Extension Service Blocks in different districts of the State of Orissa up to the 31st March 1959 ..	490
XXVI Miscellaneous.		
26-1	Incidence of fire attended by the Fire Brigades in the State of Orissa ..	500
26-2	Number of Printing Presses and Publications in the State of Orissa ..	501
26-3	Number of animals slaughtered and prices by variety of meat in selected Municipal markets ..	502
26-4	Quantity and price of Fish sold in Municipal markets ..	505
26-5	Votes polled by different parties in the Mid-term election to Orissa Legislative Assembly, 1961 ..	506
26-6	Number of Electors, Person contested and Party won in the Mid-term Election to Orissa Legislative Assembly 1961 ..	511

I. CLIMATE

Data relating to temperature and humidity are recorded at eleven observatories of the Indian Meteorological Department which are spread over different districts of the State of Orissa. For the purpose of recording such Meteorological data, the State of Orissa is one of the meteorological divisions of the Meteorological Department, Government of India. The rainfall data are recorded at different rain recording stations maintained by the State Government. These rain recording stations are situated generally near the police-stations and the officers in charge of police-stations have been given responsibility for maintaining such records.

Table No. 1·1 shows the normal and actual rainfall for the State from 1950 to 1959 and in respect of each district for the year 1959. The State figures represent the district average and such figures relate to all reorganised districts after merger of the ex-States. This table also shows the variation of actual rainfall from normal rainfall.

The actual rainfall is recorded at 8-30 hours of Indian standard time each day throughout the State and the amounts measured give the rainfall of previous 24 hours. The rainfall data are tabulated in the office of the Director of Agriculture and Food Production, Orissa, who controls the registration of rain fall and are published in the State Gazette. The period used for working out the normal rainfall of any rain recording station varies from 5 to 10 years.

Table No. 1·2 shows the maximum, minimum and mean temperature and mean humidity for the State from 1950 to 1959 and relating to different observatories for 1959. The State figures represent the average of the data of different observatories and relate to entire State of Orissa. Temperature readings are taken at most of the observatories twice a day at 8-30 and 17-30 hours I. S. T. mean temperature is the average of the maximum and minimum temperature recorded. The humidity data represent the percentage of vapour present in the atmosphere and thus shows the dampness of air.

II. AREA AND POPULATION

The abstract of data concerning area, population, villages and houses of Orissa as well as of India presented in this section is based on the Population Census of 1951.

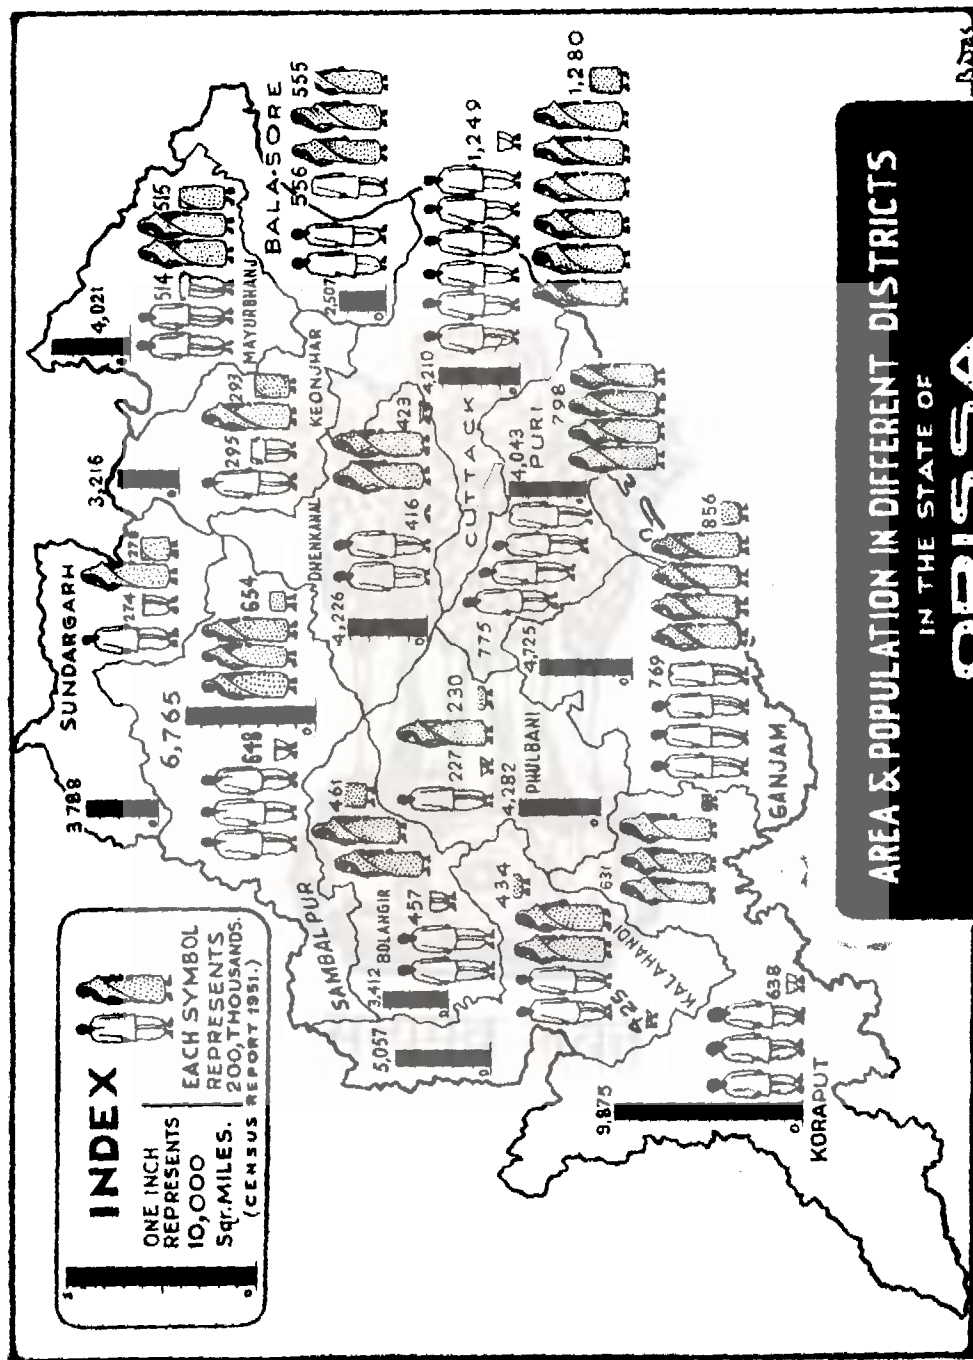

Table No. 2·1 represents the data relating to area and population of different States and Central Administrative Territories of the Indian Union. Area and population of each of the five administrative Zones formed in accordance with the States' Reorganisation Act, 1956, have been worked out on the basis of the data of the States and Central Administrative Territories which constitute the respective zones. The data relating to rural urban ratio as given in last column reveals the number of persons living in villages as against one person living in towns.

Table No. 2·2 shows the area, number of villages, number of occupied houses, number of house holds, average size of households, population by sex and density of population for each subdivision and district of the State. The word "Town" used in this Table is defined as a place of usually not less than 5,000 inhabitants possessing distinct urban characteristics, viz., centre of trade or commerce high density of dwellings, existence of public utility services or dependance of a higher proportion of population on non-agricultural means of livelihood.

The area shown in column 2 is as obtained from local sources at the time of 1951 Census as the Surveyor-General, India, has no such data for each subdivision. 'Village' in the column 15 means a revenue village. 'House' in columns 17 to 19 means a Census house which is defined as a dwelling with a separate main entrance, household in columns 20 to 22 represents a family and density of population in columns 23 to 25 means the number of persons inhabiting per square mile.

From the table it is seen that the female population in the State as well in all districts except Balasore, Keonjhar and Koraput are larger than the male population and except Balasore district population in all districts during 1951 has increased over the population of 1941. The density of population per square mile is the highest in the district of Cuttack (601) and the lowest in the district of Phulbani (107).

II. AREA AND POPULATION

2.1. Area and Population in different Administrative Zones of Indian Union

Administrative zones with recognised States and Union Territories	Area (According to the Surveyor-General of India, as on 31-3-1959)		Population in (000) (1) (1951)			Rural urban Ratio

* Centrally administered territories.

(1) No census was conducted during 1951 in Jammu and Kashmir Registrar-General's estimate of population as on the 1st March 1951 was 4.4 Million. The area of Sikkim is 2,744 Sq. miles and the population according to the 1951 Census was 137,725.

(a) Includes 83,628 Sq. kilometres of Tribal Areas of Assam where no census was taken in 1951. A local estimate of population placed it at 561 thousands persons.

+ Figures included in Column 4.

III. VITAL STATISTICS

Information regarding births, deaths, birth-rates and death-rates in the State of Orissa are shown in this section. Such data relate to both the rural and urban areas of the entire State excluding the interior Agency tracts of Ganjam and Koraput districts. The information are collected through the Union Board Staff and Village Headmen in South Orissa and through the chowkidars in North Orissa and tabulated in the office of the Director of Health Services, Orissa. The State figures from 1950 to 1959 and district-wise figures for the last year are shown in the tables under this section.

Table No. 3.1 shows the actual number of births and deaths in rural and urban areas as well as according to sex. From the data in column 7, it is seen that the births of male children are larger in number than the female children and the number of births in column 2 is always in excess over the number of deaths in column 8 for the State. The ratio of births and deaths are the annual rates per thousand of Mid-year population. The infant mortality rates are expressed as the number of deaths amongst infants under one year of age per thousand live-births recorded during the period.

Figures in Table No. 3.2 represent the deaths from Chief diseases in rural and urban areas whereas the figures in Table No. 3.3 represent the deaths as well as the death-rates by sex. In the latter table death ratios are the rates per thousand of Mid-year population.

Table No. 3.4 shows the deaths according to age-groups and by sex. The figures for each age range represent the number of persons who die when their ages are within the lower and upper limits of this range. The lower limit is always included in the range while the upper one is excluded. Death at 'O' age means born dead. The Table No. 3.5 shows the number of deaths of human beings occurring due to snake-bites and attacks of wild animals as reported by the District Magistrates.

III. VITAL STATISTICS

3.1. Number of births and deaths, birth and death rates and infant mortality in the State of Orissa

NO. OF HOSPITALS AND DISPENSARIES, BEDS AVAILABLE, IN-DOOR PATIENTS AND OUT-DOOR PATIENTS TREATED IN THE STATE OF ORISSA.

IV. MEDICAL AND PUBLIC HEALTH

Medical and Public Health Statistics which are shown in this section represent the data relating to the number of hospitals and dispensaries, number of beds available, number of patients treated, number of personnel in Medical and Public Health Services and expenditure incurred in various hospitals and dispensaries in the State of Orissa. Such informations are collected and tabulated in the office of the Director of Health Services, Orissa.

In Table No. 4.1 the number of hospitals and dispensaries run by the State Government (State public, State special, Local Fund and Private aided) together with the number of beds available, and the patients treated indoor and out-door, is shown. The non-aided, railway and subsidised hospitals and dispensaries are also shown in this table. State figures from 1950 to 1959 and district-wise distribution of such data for 1959 have been presented. Disease-wise number of patients treated indoor and out door and number of such indoor patients died in various hospitals and dispensaries in the State of Orissa are shown in the Table No. 4.2. Such data from 1950 to 1959 for the State and for 1959 for each district have been presented in this Table.

The Table No. 4.3 shows the receipts from various sources available for and actual expenditure incurred in various hospital and dispensaries in the State of Orissa. State figures from 1950 to 1959 and district-wise distribution of receipts and expenditure for 1959 have been presented here. The figures in the Table No. 4.4. represent the number of Doctors, Nurses, Health Visitors, Midwives and Trained Dhais who are in Medical and Public Health Services under the State Government. In Table No. 4.5 the number of Primary Health Centres, number of Maternity Centres and number of Maternity and Child Welfare Centres are shown from 1952 to 1959 along with the district-wise break down for 1959. Table No. 4.5 shows the data regarding the number of daily average strength and daily average sickness of prisoners in thirteen district Jails of Orissa along with the number of prisoners who are attacked by various diseases and admitted to hospitals for treatment and the number of such patients who died of various diseases. For the year 1959 such data in respect of each district Jail are shown in this Table.

NO. OF EDUCATIONAL INSTITUTIONS & TEACHERS WORKING IN THE STATE OF ORISSA.

NO. OF *Students* ON ROLL OF ALL EDUCATIONAL INSTITUTIONS IN THE STATE OF ORISSA.

V. EDUCATION

This section is meant for presenting the educational statistics of the State of Orissa. The information regarding College and School education from 1949-50 to 1958-59 for the State of Orissa and for 1958-59 in respect of each district are shown in the tables under this section. Number of all types of educational institutions in existence, number of scholars on roll, number of teachers working and expenditure incurred for education are the main types of information on this subject. Such data are collected and tabulated in the office of the Director of the Public Instructions, Orissa. The information presented in the tables of this section are compiled from that office by the Bureau of Statistic and Economics.

In the table No. 5.0 number of all types of Colleges and Schools existing in the State both recognised and unrecognised are shown. This table gives a general idea as to the educational development in the State since 1949-50. Colleges and Schools for boys or girls do not mean that they are exclusively for boys or girls. As the co-education is in vogue, girls are studying in the educational institutions meant for boys and boys are also studying in some educational institutions meant for girls. In order to give an idea of the comparative growth of education among boys and girls, total number of boys and girls scholars in all educational institutions are shown in the table No. 5.03. The table No. 5.02 gives the broad classifications and the educational institutions which come under each class are shown in it. The table No. 5.04 shows the number of teachers by sex working in different educational institutions of the State. Table No. 5.05 shows the information regarding number of Colleges, along with number of teachers working, number of students on roll and amount of expenditure incurred for College education in different districts of Orissa during the year 1958-59 whereas such data for school education are presented in table Nos. 5.06 to 5.13. In all these tables distribution of data by sex as well as by managements, Government and Private for each type of educational institution is also shown.

The expenditure shown in the table No. 5.13 are the direct expenditure which mean expenditure directly connected with the maintenance of an institution viz., salary of teachers and other recurring expenditure. In all these tables from table Nos. 5.01 to 5.11 information relating to recognised and unrecognised institutions are shown separately. The recognised institutions are those which are recognised by the Government and offer the prescribed courses of study. They are open to inspection and general direction by the Education Department of Government and their pupils are ordinarily eligible for admission to public examinations and tests held by the Department or University.

Table No. 5.14 shows the number of literates and percentage of 2 and literacy livelihood classes in the State.

Table No 5.15 shows the trend of results of various examinations conducted by the Utkal University and Board of Secondary Education, Orissa from the years 1949 to 1950 and 1958-59 for the State of Orissa.

The Ashram Schools shown in the table No. 5.16 are the residential schools for the tribal students to educate them in crafts like Agriculture, Spinning, Weaving, Carpentry, Bee-keeping etc., and the Sevashrams are day schools of L.P. standard in which admission is open to students belonging to scheduled tribes, scheduled castes and other backward classes. The data in this table present the total number of Ashram Schools and Sevashrams together with the total number of teachers working in such institutions and the total number of students on roll. Distribution of such data by sex is also shown in this table. Information given in the table No. 5.17 shows the amount of stipends and grants offered by the State Government for the study of the scheduled caste and scheduled tribes students. So these two tables give an idea as to the progress of educational facilities given to scheduled castes, scheduled tribes and other backward classes of the State.

VI. JUDICIAL AND ADMINISTRATIVE

This section presents the information relating to the administration of Civil and Criminal Justice, Registration, Police and Prisons. The data shown in the tables of this section are self-explanatory and have been compiled from the returns furnished by the concerned offices of the State Government. The State figures from 1950 to 1959 with district-wise break down for 1959 have been shown in these tables.

Table Nos. 6·01 to 6·12 show information relating to the Judicial staff who are at the helm of administration of Civil and Criminal Justice, number of Civil and Criminal cases instituted and disposed of, number of offences reported and persons tried, convicted and acquitted in the Courts of Orissa. Such data are tabulated in the office of the Registrar, High Court, after these are collected from all Courts under the Jurisdiction of the High Court, Orissa. For the year 1959, information regarding Criminal Justice for each of the 14 Judicial districts and those regarding Civil Justice for each of the 8 Judgeships have been shown separately.

Table No. 6·13 represents the data relating to registration of documents. These data are collected by the office of the Board of Revenue from different registration offices working in the State through the District Collectors. The total number of registration in column 8 of this table includes the number of other types of documents registered other than movable and immovable property. The annual figures for the State from 1950—1959 and district-wise figures for 1959 have been shown in this table.

Table Nos. 6·14 to 6·24—Information under various categories relating to strength and cost of police force in the State of Orissa and number of different types of police cases and number of persons involved have been shown in these tables. These data are collected and tabulated in the office of the Inspector-General of Police, Orissa.

Table Nos. 6·25 to 6·34—Data represent the various types of information relating to the convicts and prisoners of all Jails and Subsidiary Jail in the State of Orissa. Such information are collected and tabulated in the office of the Inspector-General of Prisons, Orissa. District-wise information for the year 1959 have been compiled by the Staff of the Bureau from the records maintained in the office of the Inspector-General of Prisons.

VII. STATE FINANCE

This section has been set apart for presenting the information relating to expenditure and revenue of the Government of Orissa. It begins with the Table No. 7-1 showing the revenue and expenditure on revenue account and the surplus or deficit, opening and closing balances which is followed by four tables showing the receipts and expenditure of the State Government under different Budget-heads. In these tables, figures represent the actual net receipts and net expenditure from the financial years 1951-52 to 1958-59. Like the preceding section, district-wise data for the last year are not shown as the same are not available. These figures have been compiled from the Civil Budgets published by the Finance Department, Government of Orissa.

Table No. 7-6—Data represent the consumption of Ganja, Bhang, Opium and Country spirits and revenue derived from their sale in the State of Orissa from 1951-52 to 1958-59 with district-wise break down of such data for the last year. These data have been compiled from the returns submitted by the Board of Revenue, Orissa.

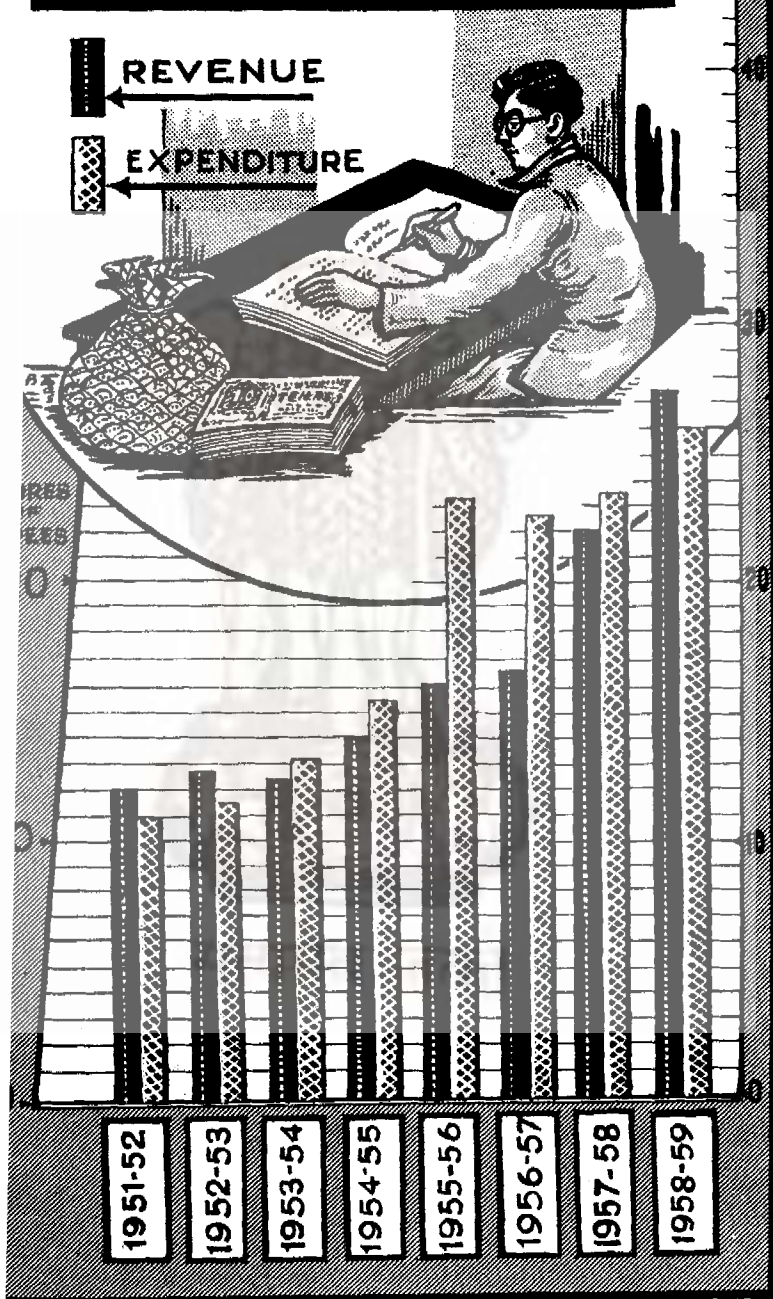

Table No. 7-7 -This contains the information regarding the sales of motor spirit and amount of taxes realised on such sales in different depots of Rural and Urban Area, for the State of Orissa, from 1951 to 1959 and in respect of each district for the last year. Such data are compiled from the returns submitted by the Superintendent of Excise of different districts.

Table No. 7-8— Shows the amount of taxes collected under Orissa Sales Tax Act, Orissa Agricultural Income-tax Act and Central Sales Tax Act. The number of registered dealers as stand at the end of each year who are liable to pay Sales Tax and number of persons who are assessed to pay Agricultural Income-tax have also been shown. State figures from 1951-52 to 1958-59 and district-wise figures for the last year have been shown in the table. Such figures have been collected from the office of the Commissioner of the Commercial Taxes, Orissa. The Table No. 7-9 represent the amount of revenue derived from the sale of different types of Forest produces as collected from the office of Conservators of Forests.

VIII. INCOME-TAX

The statistics contained in this section relate to assessments completed by the Income-Tax Department, Government of India from the years 1954-55 to 1958-59 in the State of Orissa. The figures of taxes given in the tables of this section represent the demand raised on assesment and not the collection actually made against those demands. These figures are compiled from the reports published by the Board of Revenue, Central Government.

Table No. 8-1—This table gives an analysis of the tax payable according to the range of total income and class of assessee for the year 1958-59 and is designed to show the total tax (including surcharge) payable by the assessee as well as the net income left in their hands after payment of the tax. Income from capital gains and tax payable thereon are, however, not included in this analysis. The classification according to range is based on total income before deduction of tax. The assessee in the range below Rs. 3,000 in respect of class of assessee other than companies and other concerns assessable at company rate are generally non-residents liable to tax on the basis of their total world income. Total State figures without any range in respect of each class of assessee from 1954-55 to 1957-58 are also given in this table.

Table No. 8-2—This table gives a classification of the assessee according to the range of the net income left in their hands after deduction of tax payable by them from their total income for the year 1958-59 with abstract figures for some earlier years.

Table No. 8-3—The income from business and professions and tax thereon are classified in this table according to the different kinds of trades and professions for the year 1958-59 and for earlier years only total figures of all kinds of trade and professions are given. The classification closely follows the 1951 Indian Census Economic classifications and the Census of Manufacturing Industries.

VIII. INCOME-TAX

8.1. Classification of the Tax payable according to the grade of total income and class of assessee

Individuals—Pure Salary earners

Class of assessee, Period and Grade of total income (Rs.)	No. of assessee	Total income assessed ('000) Rs.		Net income (‘000) Rs.

IX . LOCAL BODIES

In this section information relating to number of Grama Panchayats working in the State, number of villages and population covered by them with their total income and expenditure have been represented. State Figures from 1952-53 to 1957-58 and the districtwise break up the last year have been shown in the Table No. 9-1. The data have been collected and tabulated in the Department of Planning and Co-ordination (Grama Panchayats), Bhubaneswar.

IX. LOCAL BODIES

X. CURRENCY AND COINAGE

This section presents the data relating to money circulation in India and price of gold and silver in the State of Orissa. The former informations are collected from the monthly Bulletin published by the Reserve Bank of India and the latter compiled from the weekly returns submitted by the Chamber of Commerce, Berhampur.

Table No. 10-1—Figures for notes and rupee coin shown are for the last Fridays of the period stated. Figures are net of adjustment made on account of transfer of liabilities to the State Bank of Pakistan in respect of inscribed Pakistan Notes issued between April and July 1948, cancellation of India Notes returned from circulation in Pakistan under Section 4 (2) of Part IV of the Pakistan (Monetary and Reserve Bank) Order 1947, as amended, and India Notes returned from circulation in Aden during the period from October 1951 to 1952.

Notes in circulation comprise all notes issued by the Reserve Bank of India other than those held in the Banking Department and include notes held by Government Treasuries and Commercial Banks in addition to those in circulation among the public. Notes held in the Banking Department form part of the assets of the Banking Department.

Rupee coins include one rupee notes issued since July 1940 under the Currency Ordinance, 1940. The issue Department of the Reserve Bank of India holds rupee coins as assets against notes issued to afford facilities to the public to convert notes into coin.

Table No. 10-2—The prices of gold and silver are compiled from the weekly returns. The annual figures are the averages of the monthly figures which are the average of the weekly quotations.

XI. WAGES AND PRICES

Statistics relating to the retail price index, wholesale price index, prosperity index of the farmers, working class consumer price index in cuttack and Berhampur, as well as in some other centres in India, average retail price of common rice, cost of selected items of farm cultivation and rural wages of different classes of labour, the farm harvest prices, the wholesale prices and retail prices of different commodities, in the State of Orissa are presented in this section. The annual data for the period stated are the averages for the monthly figures.

Wholesale and retail price index (Table Nos. 11-01 and 11-02)—Data represent the price relatives of different commodities constructed by the Bureau of Statistics and Economics on the basis of the available price for different markets in the State of Orissa for the period stated taking the price of the month of August 1939 as 100. Previously, the price data were collected and published fortnightly in *Orissa Gazette* by the Office of the Director of Agriculture and Food Production, Orissa. Now the price data are being collected by the Directorate of the Marketing and are published in separate Bulletins.

Prosperity Index of the farmers—The Table No. 11-03 represents the ratio between the index number of the prices paid and the index number of the prices received by the farmers. The index number of the prices paid by the farmers is a composite index of two groups, viz., domestic expenditure and farm cultivation cost. The group index is the weighted geometric average of the price relatives of the component commodities of the group, weights being the average expenditure on these commodities by a cultivator. Similarly the composite index is computed utilising the average expenditure on each group as weight. The index number of the prices received by the farmer is the weighted geometric mean of the price relatives of the component commodities, the weight being generally proportional to the percentages of the quantities of those commodities available for marketing during the base period.

Working class consumer price index (Table Nos. 11-04 and 11-06). The figures for various centres in India relate only to working class families, the heads of which are in fulltime and regular employment. They represent the changes in the cost of a given schedule of goods and services consumed by an average working class household in each centre as determined by periodical field enquires. The items on the list of articles are grouped under five heads viz. food, fuel and lighting, clothing and beddings, etc., house-rent and miscellaneous. Separate indices are worked out for the individual groups. The index for any group is the weighted arithmetic average of the price relatives of the several items of the group, the weight being proportionate to the expenditure of an average working class family on those items. The composite index or the index for all groups is the weighted arithmetic average of the group indices, weights being the proportionate to the expenditure on those groups by an average working class family. Rent figures in all cases are obtained from enquiries held at long intervals. No account is taken of the seasonality in prices of commodities and services included. The data are collected from the Indian Labour Journal published by Labour Bureau, Government of India.

Table No. 11-07—This table shows the average retail price of common rice which is given in seers per rupee collected from the Office of the Director of Agriculture and Food Production, Orissa. Data relating to the years 1916 to 1959 are shown in this table.

Table Nos. 11-08 and 11-09—Data represent the cost of the selected items of the farm cultivation as stated in the concerned table and wages and working hours of the different class of labour in the rural areas of the State of Orissa. The State figures from 1952 to 1959 with districtwise breakdown for the last year are shown in these tables. The data are compiled from the returns submitted by the Agricultural Oversers and Sub-Oversers relating to various centres selected in the rural area to the Bureau of Statistics and Economics, Orissa.

Table Nos. 11-10 to 11-12—The farm harvest prices, retail and wholesale prices of various agricultural and commercial commodities, have been presented in these tables. The data relating to table No 11-10 to 11-12 is collected and tabulated in the Office of the Director of Agriculture and Food Production, Orissa and Director of Marketing, Orissa respectively

XI. BANK

This section represents the data relating to business of different Scheduled Banks operating in the State of Orissa. The figures are for the last Fridays of the period stated or for the previous working days if Fridays are holidays, and are compiled for the monthly returns submitted by different Scheduled Banks in respect of their branches operating in the State of Orissa. The Banks included in the second schedule to the Reserve Bank of India Act, are termed as Scheduled Banks which are obliged to maintain with the Reserve Bank of India a minimum balance amounting to 5 per cent of their demand liabilities and 2 per cent of their time liabilities and they enjoy certain facilities from the Reserve Bank.

Demand liabilities—All liabilities which are payable on demand. Demand deposits, outstanding telegraphic and mail transfers, demand drafts, bills payable, unpaid dividend warrants and borrowing from Banks (other than Reserve Bank and State Bank) are payable on demand.

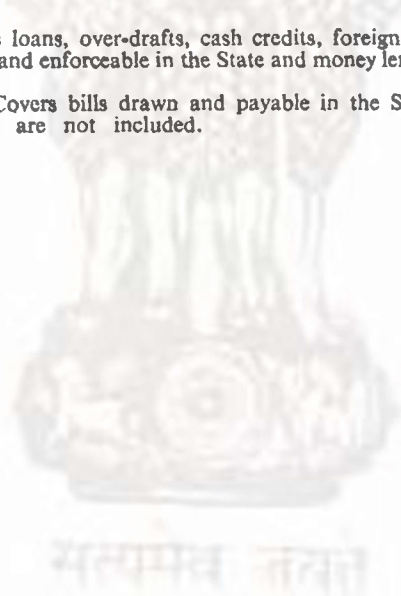

Time liabilities—These include fixed deposits, time borrowing from Banks and other outside liabilities not payable on demand.

Cash—Comprises current notes and coins maintained as till money currencies of the foreign countries are excluded.

Balance with the Reserve Bank of India—The clause 45 (a) of the Reserve Bank of India Amending Act, 1956 enables the Reserve Bank of India to vary the required reserve of the Scheduled Banks between 5 and 20 per cent of the demand liabilities and between 2 and 8 per cent of the time liabilities.

Advance—Includes loans, over-drafts, cash credits, foreign import bills, negotiated under letters of credit realisable and enforceable in the State and money lent to other Banks.

Bills discounted—Covers bills drawn and payable in the State including demand drafts purchased. Export bills are not included.

XIII. JOINT-STOCK COMPANY

Statistics relating to the Joint-Stock Companies shown in the Table No. 13·1 of this section are compiled from the monthly publication "Blue Book" issued by the office of the Registrar, Joint Stock Companies, Orissa under the provisions of the Indian Companies Act VII of 1913 as amended by Act XXII of 1936. The Registrar Joint-Stock Companies is responsible for collection of such statistics in the prescribed *pro forma*. Data presented in the said table relate to the Companies Limited by shares registered or incorporated in Orissa. The liability of a member in such Companies is restricted to the unpaid amount on the shares held by him.

Statistics are given for the number of companies at work up to the end of the period stated with their authorised, subscribed and paid up capital, number of companies newly registered with their authorised and subscribed capital and number of companies liquidated with their authorised, subscribed and paid up capital during the period stated in the State of Orissa. State figures from the year 1955-56 to 1958-59 separately for public and private companies have also been shown in this table. Data relating to companies registered elsewhere than in Orissa, and carrying business in Orissa are not included in this table.

JOINT-STOCK COMPANY

XIV. CO-OPERATION

This section presents the statistics in abstract form relating to the working of the co-operative movement in the State of Orissa. Such statistics are compiled from the annual report of the co-operative Department, Orissa. The State figures from 1949-50 to 1958-59 are presented in the tables of this section and the annual data pertain to the year ended 30th June.

Table No. 14·1—Statistics for Central Co-operative Banks, Agricultural and Non-Agricultural Societies are shown separately in this table. Statistics for all types of Societies in this table represent the sum total of the data relating to these three types of societies. Agricultural Societies represent all agricultural credit and agricultural non-credit Societies. Non-agricultural Societies include non-agricultural credit and non-agricultural non-credit Societies and insurance Societies.

Table No. 14·2—Orissa State Co-operative Bank, Orissa State Co-operative Housing Corporation, Orissa State Co-operative Societies, Central Non-Credit Co-operative Societies, Orissa Provincial Co-operative Land Mortgage Bank, State Co-operative Union Bank and State Handloom Weavers Co-operative Societies come under the Provincial Co-operative Institutions and data relating to each of such societies are presented in this table. Statistics for all types represent the sum total of the data relating to the societies stated in this table, "Working capital" of the column 7 and column 8 in the table No. 14·1 and 14·2 respectively is the total of the three columns preceeding it.

Table No. 14·3—Statistics relating to each individual Society of all types are presented in this table for the year 1958-59. "Share Capital" denotes the paidup amount. "Deposits" represent the deposits by members, Co-operative Institutions, Primary Societies, Individuals and other sources. "Loans from other Societies and Bank" include Government loans and loans from Reserve Bank of India. "Reserve" represents reserve and other funds. "Working Capital" in column 9 of this table is the total of columns 4, 6, 7 and 8.

XIV. CO-OPERATION

14.1. Number, Membership and Financial position of Co-operative Societies
(i) Central Banks

Period	Number of Societies	Number of members	Loans and deposits from private persons, other societies Government and Banks ('000 Rs.)	Share Capital ('000 Rs.)	Reserve and other funds ('000 Rs.)
1	2	3	4	5	6
1949-50	22	5,226	91,60	11,38	15,42

XV. AGRICULTURE

Available statistics regarding Agriculture in the State of Orissa are presented in this section. State figures from 1949-50 to 1958-59 with district wise distribution for the last year are shown in the tables of the section. The data are in respect of the Crop-year which starts from July and ends in June. Such statistics are collected from the office of the Director of Agriculture and Food Production, Orissa, who in turn depends upon the village Karanams in the district of Ganjam, village Potwaries in the district of Sambalpur, Chaklakanungoes in the districts of Balasore, Puri and Cuttack, Taluk Officers in the district of Koraput and Deputy Collectors in the newly formed districts for the primary returns (Printed booklets containing all the statements).

Table No. 15-1—Data relates to the lands which are put into various uses from year to year. The total area of the State is given according to village papers as available in the Census Reports, 1951. The total area according to the Surveyor-General of India has also been given. Area under forest as shown in this table does not agree with that of the Forest Department, because certain villages and other lands though not covered by forests, are taken as forest by the Forest Department, while these data are not treated as forest for the purpose of Agricultural Statistics.

Area not available for cultivation—The land which is absolutely barren or uncultivable or covered by buildings, water or roads or otherwise appropriated for non-agricultural purposes comes under this classification.

Other Uncultivated land excluding fallow land—This denotes land for cultivation, but not used as such and includes culturable wastes, permanent pasture and other grazing lands and lands under miscellaneous tree crops.

Fallow Land—It denotes cultivable areas which after abandonment remain uncultivated over a long period. **Net area shown**—In Computing the aggregate net area sown the areas sown more than once are counted only once. **Total cropped area**—For calculating total cropped area, if different crops are raised on a given land, the same area is counted for each crop. In this table in respect of some districts figures of previous years have been repeated.

Table Nos. 15-2, 15-3 and 15-4—Figures are given for areas and yields of principal crops and average yield per acre. These are taken from the forecasts issued by the Director of Agriculture and Food Production, Orissa regarding these crops. In respect of each crop, generally three estimates are issued at different dates of the year and these are based on "Condition factors" or 'anna estimates' of crops reported by the primary agencies. The first estimate provides at an early date, information regarding the annas sown, the second estimate issued generally about a couple of months later includes the areas of the late sowing and also gives information regarding the condition of the crop. The third or the final estimate represents the total areas sown and yield harvested or expected to be harvested. The successive estimates, thus, give a progressive picture, of the areas and yields. The final estimate of a year is revised again at the time of release of the final estimate of the subsequent year. The data presented in these tables are such revised estimates for the period stated.

Table No. 15-5—This table represents the areas in acres and yields of Coconut in thousand nuts. Annual figures have been given from 1951-52 till 1958-59. Districtwise distribution have been given for the year 1958-59.

IRRIGATION

Table No. 15-6—Relates to area under irrigation by sources of irrigation—As complete information in respect of all the districts could not be available in the Directorate of Agriculture figures in respect of a few districts have been given as provisional by taking the previous year's figures.

XVI. FORESTS

Statistics concerning forests are shown in this section. Table No. 161 deals with the area of the forest lands of the State of Orissa. Area under forest are classified according to legal status such as 'Reserved' and 'Protected'. Reserved forest is one which is permanently dedicated either to the production of timber or other forest produce and in which right of grazing and cultivation is seldom allowed. In protected forests these rights are allowed subject to a few mild restrictions. State figures from 1949-50 to 1958-59 are shown in this table.

Table No. 162—Data given in this table represent the outturns of forest produces in the State of Orissa from the year 1949-50 to 1958-59. The figures in respect of outturns of timber, bamboos, fuel and revenue realised from the auction sale of minor forest produces with total revenue of the Forest Department are given in this table.

Table No. 163—Information given in this table relate to total area under Forest Department, area of forest lands protected from fire and cattle with their respective proportion to total area of forest lands in the State, area opened for grazing and number of animals grazed on such lands. Only the State figures from 1949-50 to 1958-59 are presented in this table.

XVI. FOREST

* 7,000 sq. miles which were under the Revenue Deptt. as ex-zamindari forest have been included.

XVII. LIVE-STOCK

This section presents the statistics regarding live-stock, poultry, agricultural implements, seizures and deaths of cattle from various contagious diseases and diseased cattle treated in the veterinary hospitals and dispensaries. Data regarding live-stock, poultry, and agricultural implements are collected through a census conducted quinquennially. In the rural areas, the primary data are collected through village revenue agencies or through other local staff where such agencies are not in existence. In the urban areas, the staff of the Municipalities and Notified Area Councils collect such information. The data are collected and tabulated by the office of Director of Animal Husbandry & Veterinary Services, Orissa. Before the independence of this country, the last census was conducted in 1945 in all States and after independence, the first census was conducted in 1951 throughout India, except in Orissa where the live-stock census could not be conducted due to some administrative and other difficulties. Even the second All-India live-stock census conducted in 1956 could not be extended to the State of Orissa due to the same reasons and it was only conducted in 1957. The data as obtained through the live-stock census conducted in 1945 and 1957 are shown in abstract form in the table Nos.17·1,17·2 and in respect of each district of the State of Orissa. The figures for 1945 are adjusted to the new districts formed after integration of the ex-States with Orissa.

Table No. 17·3—Number of cattle attacked and died of various contagious diseases are given in this table for the year 1949-50 to 1958-59 in respect of the State of Orissa.

Table No. 17·4—Data represent the number of Veterinary Hospitals and Dispensaries in existence, number of Veterinary Surgeons working, number of cattle treated and inoculated and number of castration and artificial insemination done in the State of Orissa from the year 1949-50 to 1958-59. The Statistics of the above two tables are collected by the office of the Director of Animal Husbandry & Veterinary Services, Orissa, through the Veterinary staff.

XVIII. INDUSTRY AND MINING

TABLE No. 18-1

Data relating to the area over which salt is produced, quantities of salt produced and consumed and the amount of cess realised by Government are presented in this table for the State of Orissa from the year 1950 to 1959, along with the factory-wise figures for the year 1959. The figures are obtained from the office of the Superintendent, Salt, Orissa.

Census of Manufacturing Industries—The table No. 18-2 shows the summary statistics of Manufacturing Industries in the State of Orissa from 1948 to 1957. These data were collected through the Annual Census of Manufacturing Industries conducted under the provisions of the Industrial Statistics Act, 1942 and Census Manufacturing Industries Rules, 1945 made thereunder. The Census was confined to only 29 types of industries out of 63 heads. The factories registered under the Indian Factories Act, 1948 which employ 20 or more workers on any day with or without power have been taken into account. Factories in existence during the year which did not work have also been included. Number of Factories and average number of working days for 1955-1956, 1957 and 1958 are shown according to Industries in the Table No. 18-3, whereas Manufacturing statistics relating to five Industries Viz.,—Rice milling, Distilleries, Cotton Textiles, Vegetable Oils, and General Engineering and Electrical Engineering are given in the Table No. 18-4. As the number of Distillery factories was less than three during 1957 and 1958 the particulars have not been given in the Table No. 18-5. The explanatory notes on these tables are given below :—

(i) Average No. of days worked—This is computed by adding the number of days worked by the factories in the industry and dividing the aggregate by the number of factories where manufacturing operations were carried on.

(ii) Productive Capital—Capital employed as on the 31st December of each year or the last closing date of account of the Factory except in case of Sugar Industry (for which the particulars are as on 30th June) has been taken into account. It consists of fixed Capital (comprising Factory land, buildings, plant, machinery and miscellaneous assets such as Furniture, Fixture, Fittings, railway sidings, automobiles, patents, and trade marks, etc.) and working capital (comprising stocks of raw materials, finished and semi-finished products, cash in hand and at the bank excluding fixed deposits, and current credits).

(iii) Number of persons employed—The average number of persons employed by each Factory under various heads such as workers, persons other than workers, etc., on days on which manufacturing operations were carried on in the factory is computed by adding the number of persons employed in all these days and dividing by the number of days. This includes all administrative, clerical and technical staff working in the factory except those engaged in effecting the delivery of the output. Persons employed in retail sales organisations are not included. The persons employed are classified as workers and as other than workers.

(iv) Workers—The term "workers" is used in the same sense as in the Factories Act, 1948, but excludes persons holding position of supervision or management or employed in a confidential position.

(v) Other than workers—This term includes all employees other than workers as defined in IV above.

(vi) Wages / Salaries—The term wages / salaries should include all payments made in cash as compensation for work done during the year, e.g., basic wages, dearness allowance, overtime payments, shift allowance, leave wages, wages for paid holidays, all bonuses, (profit sharing bonus, production bonus, goods attendance bonus, incentive bonus etc.) and other cash payments made from time to time, regular and *ad hoc* contractual or *ex-gratia*.

(vii) Cost of Materials consumed—This excludes any fuel or materials manufactured in the factory and consumed in it. This refers to the purchase value of raw materials, Fuel, Electricity, Coal, Gas, Lubricating, etc., for making products and by-products in the factory for sale. The purchase value includes the cost of materials etc., delivered at the factory and includes the purchase price, transport charges and other incidental costs.

(viii) Amount paid to other concerns for work done for the factory—This term denotes the cost of services rendered to the factory by other concerns and by individuals other than the own employees of the Factory.

(ix) Products and by-products manufactured for sale—This includes all products and by-products made during the year for sale, whether actually sold during the year or not. It is generally estimated by adding sales during the year and stocks at the end of the year and deducting stocks at the beginning of the year.

(x) Value added by manufacture—This represents that part of value of the product which is created in the factory and is computed by deducting from the gross ex-Factory value of output, the value at factory of fuel and materials used, work done for factory by other concerns and depreciation of fixed assets.

Table No. 18-5—Statistics regarding number of mines, production and value of minerals and employment relating to the reporting mines are shown in this table. State figures from 1951 to 1959 with district wise breakdown for the year 1959 are presented. The data are collected from the Directorate of Mines, Orissa. The basis of valuation is the pit mouth value of production except for some minerals where average value per ton is used.

XIX. LABOUR AND EMPLOYMENT

This section presents data in respect of employment and accidents in factories, industrial absenteeism, workmen's compensation, wages and earnings. Statistics relating to the employment and accidents in factories are collected by the office of the Chief Inspector of Factories, Orissa, under the provisions of the Indian Factories Act, 1948 which covers all factories employing 10 workers or more with the aid of power and 20 workers or more without the aid of power. Special powers also are given in the Act to collect information from small factories. Statistics regarding compensations paid to workers are collected by the office of Bureau of Statistics and Economics, Orissa, on voluntary basis from all Commissioners appointed under the Workmen's Compensation Act, 1923, whereas Statistics of wages and earnings of factory workers are collected by the office of the Labour Commissioner, Orissa under the Payment of Wages Act, 1936.

Factory Statistics—The factories which submitted returns during the period stated with the number of workers employed in them are distributed according to the number of working days of the year in the Table No. 19·01 for the State of Orissa from 1953 to 1959 whereas data in Table No. 19·02 represent the number of factories registered, number of factories working and submitted returns and the licence fees realised from them during the period stated.

Data relating to total number of factory accidents, man-days worked, man-days lost, severity rates, and frequency rates of accidents in the State of Orissa from 1953 to 1959 are given in the Table No. 19·03 while data in the table No. 19·04 represent the number of accidents in the factories of selected industries, from 1953 to 1959. Accidents cover all accidents occurring in the factories which result in either death or injury to a worker necessitating his absence from work for 48 hours or more. No. of man-days lost

————— X 1,000 man-days worked—Severity rates.
No. of man-days worked

No. of accidents

————— X 100,000 man-days worked—Frequency rates.
No. of man-days worked

Table No. 19·05—Data relate to industrial absenteeism and these are collected by the Bureau of Statistics and Economics from all registered factories on a voluntary basis. State figures from 1952 to 1959 and Industry-wise data for the last year are given in the table.

Total number of man-shifts scheduled to work—Gives sum total of the number of workers scheduled to work in all shifts of the factories during the period. Total number of man-shifts absent represent the sum total of the number of workers remained absent for all shifts of the factories during the period. Absence represents absence on leave due to sickness, accidents, social, religious and other causes as defined under rules. Absence of workers due to strike or lock-out or employer-ordered lay off are not included.

Workmen's Compensation—Statistics relating to the number of cases filed before and disposed of by the Commissioners, Workmen's Compensation, Orissa, and the amount of compensation paid to the workers involved in industrial accidents under the Workmen's Compensation Act, are shown in Table Nos. 19·06-19·07. For the purposes of compensation, accidents are classified as accidents causing death, permanent disability and temporary disability. It may be mentioned that number of accidents reported under the Factories Act or Mines Act need not be necessarily identical with the number of accidents actually compensated under the Act. State figures are shown for the years 1957 to 1959 and district-wise figures for the year 1959 are shown.

Wages and Earning—The Statistics in respect of wages and earnings of factory workers, deduction from their wages for reasons stated and average annual earnings per worker (Industry-wise) as collected under the Payment of Wages Act are presented in the Table Nos. 123 to 125. State figures for the year 1957 to 1959 are shown in these tables. 'Wages' as defined in the Act cover all remunerations capable of being expressed in terms of money and payable under the terms of contract. The provisions of Payment of Wages Act apply to all factory employees including Clerical, Supervisory staff whose monthly earnings do not exceed Rs. 200 per month.

The coverage of such statistics, has been enlarged with the coming into force of the Factories Act, 1948 because the definition of the factory has been extended to all factories working with aid of power and employing ten or more workers as well as those working without the aid of power and employing 20 or more workers. The industrial establishments viz., Bus services plying under the stage carriage and public carrier permits, bamboo forest organisation excluding Government factories (Railway workshop and proof experimental establishments under the Ministry of Defence) have also been included under the provisions of the Payment of Wages Act.

Table No.—19·13

Object—The object of collecting statistics of Industrial Disputes is to bring out information on work stoppages due to industrial unrest leading to loss in economic activity which naturally affects production.

Industrial Disputes—Work stoppages may be classified according to their origin. If it originates in a demand desired to be enforced and connected with employment or non-employment or terms of employment or conditions of labour, it is termed as an "industrial dispute". The workers may stop work as a protest against certain demands of their employer.

Source of Collection—Statistics on industrial disputes are being collected at the instance of State Government in the Labour Department on voluntary basis from the units having the following characteristics :—

(i) involving 10 workers or more and

(ii) leading to a temporary stoppage of work with a view to enforcing an individual or collective demand and in absence of a demand sponsored by the workers.

The forms A, B and C designed by the Government of India are canvassed for the collection of statistics. The agencies of all the Subdivisional Officers are utilised to trace the occurrences of the disputes in each subdivision to collect fuller details relating to them. Information relating to occurrences of disputes are also available at times in the local new papers facilitating the Authority to take initiative in the matter to collect statistics from the employer.

Industrial Disputes relate to both strikes and lock-outs for which information are collected.

Strikes—Work stoppages declared and organised by workers are called strikes.

Lock-outs—Work stoppages declared by employers are styled as lock-outs and generally take place after a strike.

Number of workers involved—This relates to the actual number of workers affected either directly or indirectly in the dispute, suppose 400 workers in a factory launch a strike and in consequence the factory employing 700 workers has to be closed, in that case 400 workers are affected directly and the remaining 300 workers rendered idle due to occurrence of the work-stoppage are taken to be indirectly affected. This includes permanent, casual, and temporary workers but excludes any worker employed in special item of work not normally carried on by the employer.

Man-days lost—Man-days lost are obtained by adding up the actual vacancies caused by the work-stoppage in each shift. Here vacancies due to workers both directly and indirectly affected should be taken into account. Sundays and other holidays are excluded while calculating this.

Wages lost—The amount of wages lost by the workers has been specified due to occurrence of work-stoppage.

Production lost—This is a loss to the employer on account of the work-stoppage caused by the workers.

Table No. 19-14—This table contains information on working of employment exchanges in Orissa and the period covered is from 1951 to 1959, and the district-wise data for 1959 are also given.

XIX. LABOUR AND EMPLOYMENT

XX. FUEL AND POWER

This section deals with the statistics regarding production and distribution of coal, supply of coal by rail to different classes of consumers, generation and sales of electricity in the State of Orissa.

Table No. 20-1—The figures of production represent the consumable coal raised and measured at pit-heads of coal mines. These are gross output that is total output without deducting quantities consumed at the collieries which is about 7.5 per cent of the total raisings. Distribution figures represent the total despatches of consumable coal loaded at pit-heads of collieries. The data are collected by the Office of the Coal, Commissioner, Government of India, in the prescribed *Pro forma* from the owners of collieries who maintain daily records of such output and despatches.

The figures relating to despatches by rails to different classes of consumers are collected from the Supply Department, Government of Orissa. They get such information from the Director of Industries, in respect of supply for industrial purposes, District Magistrates for Brick burning and Chief Engineer for Government work. The figures from 1951 to 1959 for the State are presented in this table.

Table No. 20-2—Figures relate to generations, purchases and sales of Electricity by the Public Utility Electric Supply undertakings in the State of Orissa owned by Government or Local Authorities or Companies. Military, Railway and Factory Power Stations are excluded. State figures from 1950 to 1959 with figures for each undertaking from which returns are received for more than six months during the year 1959 are shown in this table.

The figures of generation represent the generation by stream, oil and hydro-plants. Purchase figures include purchases made from outside Orissa. Domestic consumption includes sales of Electricity for domestic lights, fans and heatings, consumption for commercial light and small power comprises sales for lights, fans heatings and small power in commercial and business premises. Industrial power, low and medium voltage supplies cover high, low and medium voltage supplied to industrial undertakings. Consumption of power stations and line losses have been excluded.

XXI. TRANSPORT AND COMMUNICATION

This section deals with statistics relating to the Traffic Census of the State Transport Services, Roads Transport Company Ltd., Orissa, along with their financial position Motor Vehicles plying, vehicles taxed, tax receipts and fees collected, Motor Vehicles driving licenses issued and accidents occurred due to vehicles in the State of Orissa. There are two systems of Road Transport Organisations prevailing in the State of Orissa—One an entirely Government-managed Organisation called State Transport Service and the other is called Orissa Road Transport Company Ltd., managed through a Tripartite Joint Stock Company in which the State Government, Central Government (Railways) and the Private individuals are the participants.

Statistics regard number of buses owned, milcages run by buses plying in various routes under operation, numbers of passengers carried by buses from place to place, number of routes, with their distances buses plying and financial position realting to the State Transport Service and Roads Transport Company Ltd., have been presented in the tables from 20:01 to 20:06 All these data are Collected and tabulated in the office of the Controller, State Transport Service and Director, Orissa Road Transport Company Ltd.

Statistics regarding number of motor vehicles plying, motor vehicles driving licenses issued, number of motor vehicles taxed, tax receipts and fees collected have been presented in the next four tables. These figures are collected and tabulated in the office of the Inspector-General of Police, Orissa. Number of accidents caused by various types of vehicles and number of persons killed and injured due to such accidents are given in the table No. 20.11 Number of accidents covers all reported accidents occurred in various places accessible to vehicles. These are compiled in the office of the Superintendents of Police from the returns received from police-stations.

XXII. POSTS AND TELEGRAPHS

This section presents statistics relating to the Small Savings, number of Posts and Telegraph Offices in existence, Postal Traffic and Postal Revenue in the State of Orissa. The State figures from 1951 to 1959 are given in the tables of the Section. Such data, except the number of Posts and Telegraph Offices are compiled in the office of the Deputy Accountant-General, Posts and Telegraphs, Government of India, Calcutta, who collect the same from all Post Offices working in the State.

Telegraph charges realised in cash—These include revenue derived from (1) messages sent on Deposit Account System, (2) messages booked through National Cash Register and Franking Machine, (3) bearing Press Messages, (4) cost of unnecessary service messages, (5) recovery in cash on account of under charge fees Registered Abbreviation Addresses.

Telephone Revenue—Revenue derived from rent of Telephones and Telephone call fees.

Postage realised in cash—Refers to those cases where postages are paid for in cash instead of postage stamps. This includes (1) Postage paid in cash in Presidency Post Offices, (2) Credit afforded in the Schedule of customs duty on account of postal fees, delivery fees, redirection fees, warehousing charges, demurrage, etc., realised on delivery of inward foreign parcels, (3) charges for resetting franking machines, (4) cash realised from unpaid or insufficiently paid postal articles.

Other receipts—Includes all other items of Posts and Telegraph revenue except those specified above. Most important of such items are (1) Receipt on account of M. O's., B. P. O's and I. P. O's., (2) Fees from Broad casting Receiver licenses, (3) Rent of wires and instruments leased to Railways and Canals, (4) Revenue derived from the sale of ordinary and service stamps used for both postal and telegraph purposes.

XXIII. AMUSEMENT

This section deals with the statistics relating to the cinema houses and entertainment taxes collected in the State of Orissa. The data are compiled in the office of the Bureau of Statistics and Economics, Orissa from the returns submitted by the individual cinema houses.

Table No. 23·1—Number of cinema houses in existence, number of houses reporting, total number of tickets sold in all classes and the amount of sale-proceeds of tickets realised from the cinema-going population are shown in this table. State figures from 1952 to 1959 with district-wise break down for the last year are presented.

Table No. 23·2—The amount of entertainment taxes realised with the number of concerns from whom such taxes collected are given in this table. Such data are compiled from the returns submitted by the District Magistrates to the Bureau of Statistics and Economics, Orissa. State figures from 1951 to 1959 with district-wise figures for the last year are given in this table.

Table No. 23·3—Data represents the sitting capacity, status of the individual cinema houses and the value of tickets and the amount of entertainment taxes charged in different classes.

सत्यमेव जयते

XXIV. EXPORT AND IMPORT

Statistics relating to the trade of Orissa are presented in the tables of this section

Table No. 24·1—Data represent the inland trade statistics of Orissa relating to the quantities and value of cargoes carried by country boats. Total amount of tollage collected is also given in this table. The data are collected from the office of the Executive Engineer, Mahanadi Division and shown for the State of Orissa from the years 1948-49 to 1958-59.

Table No. 24·2—Inland trade statistics presented in this table relate to the movement of trade by railways into and from the State of Orissa. Movement of the trade by other means (e.g., road, air, country boats) is excluded from the scope of these statistics.

The data relating to export and import of a State are compiled from the returns submitted by the railway authorities in the office of the Director General of Commercial Intelligence and Statistics, Government of India. The statistics are recorded on 'Import' basis. According to the arrangement in force, each of the railways register the traffic as is received at the stations on its line within one State from other States. Such traffic is recorded as import of the State where it is received and is treated as export of the State from where it came. On the basis of this method export and import figures are compiled for each State. The figures thus arrived at for the State of Orissa are shown in the table from 1952-53 to 1958-59.

The trade in staple articles only is recorded in standard maunds of 82 2/7 lbs. The weight recorded is the net weight, i. e., the gross weight entered in the invoices less certain fixed percentages which have been taken to represent the weight of the packing, etc.

XXIV. EXPORT AND IMPORT

24.1. Quantity, Value and Tollage of different cargoes carried by inland water transport in Orissa

Year	No. of boats with full capacity	Quantity of cargoes carried		No. of boats (not fully loaded)	*Quantity of cargoes carried in vessels

XXV. COMMUNITY DEVELOPMENT

This section deals with the statistics relating to the Community Development programme in the State of Orissa. This programme is in the operation since October, 1952 and by the end of March 1959 about half of the area of the State has been brought under its coverage. The programme aims at all round Development of rural Community by methods which will stimulate, encourage and help villagers to undertake Developmental work in their own areas.

Table No. 25·1—Data relating to the total provision for the Second Five-Year Plan period and the actual expenditure incurred during the first three years of the plan period 1956-57, 1957-58 and 1958-59 for various developmental activities as stated are presented in this table. The expenditure figures represent the expenditures incurred in connection with all plan schemes (State Sector) which are being executed in the State of Orissa and the data are supplied by the Planning and Co-ordination Departments, Government of Orissa.

Table No. 25·2—Statistics relating to the progress of physical achievements gained in various fields of activities upto the end of March 1959 since the date the Community Development Programme is launched in Community Development and National Extension Service Blocks. Data in respect of each district as well as each type of block are shown in this table. All data presented in the table No. 25·2 is compiled by the A. I. Unit of Bureau of Statistics and Economics, Orissa from the Progressive reports furnished by the Block Development Officers in the forms prescribed by the Government of India.

XXVI. MISCELLANEOUS

Table No. 26.1—Data relate to the fire accidents attended by the Fire Brigades in the State of Orissa. State figures from 1953 to 1959 with district-wise information for last year are presented in this table. Such data collected from different districts and made available to Bureau by the Fire Officers of different Districts.

Table No. 26.2—Statistics regarding number of Printing Presses working and books and periodicals published in the State from 1949-50 to 1957-58 and in different districts for the last year have been presented in this table. The data have been collected from the Home Department, Government of Orissa.

Table No. 26.3—Data represent number of meat stalls, number of animals slaughtered and the price of meat in the Municipal areas of the State. The annual data are compiled from the monthly returns submitted by different Municipalities and Notified Area Councils.

Table No. 26.4—Quantities of fish sold and the price of fish per standard seer prevalent in some selected Municipalities during the period stated are shown in this table. The annual figures are compiled from the monthly returns submitted by the concerned Municipalities. The data in respect of each selected Municipalities from the year 1951 to 1959 are given in this table.

Table 26.5—This table represents the number of valid votes polled to different parties in the Mid-term Election to Orissa Legislative Assembly, 1961 and the data are given for district-wise constituencies of the State.

Table 26.6—This table represents the number of persons contested, number of electors, valid and invalid votes polled and party won in the Mid-term Election to Orissa Legislative Assembly, 1961. The data are given for district-wise constituencies of the State.
